This April, the Town of Balgonie will begin the curb side composting program.

Your cart will arrive April 4th, 2019 and the first pick up will be April 15th, 2019.

As with the other carts, please have them on the curb side on MONDAYS by 7:00 am.

This will be a weekly pick-up program from April until November, with a monthly pick-up in the winter months.

Incase they get mixed up during a wind storm, we are also asking residents to help us out by using a black marker and writing your home address on the back of these bins as the serial numbers are recorded to your address.

Thank you for your support in our environmental efforts.
