### YOUR CIVIC ADDRESS AND WHY IT'S IMPORTANT TO HAVE IT DISPLAYED

With the new Provincial-wide 911 emergency system now in place, it is important that you have the correct address displayed on your home. In an emergency situation, time is of the essence, and we want emergency personnel to find you in a timely manner.

You may receive a letter from the Town office, clarifying the address that both the Town and the 911 system has on record for your home.

**If you receive a letter, and you are currently displaying the correct address, you do not need to do anything further.**

If you live on a corner lot, it may be of interest to you to have both your house number and street name displayed. This may be especially important if your home does not face the street that you are associated with. If you would like to clarify your address, please feel free to call the office and we can help you out.

# CONTAMINATION ALERT

February 2020

Dear Resident,

Crisis is perhaps too strong a word, but contamination of recycle material is, in general, a growing problem in North America. In 2018 China stopped accepting recycle materials from around the globe. The result is an oversupply of recyclables, driving values down and processing costs up. The need for maintaining and improving the quality of what is collected is greater than ever.

As you know, recycling processing relies, in part, on separating acceptable materials from garbage. Material Recovery Facilities (MRFs) are being vigilant in reducing the contamination levels in the materials they are marketing; however, this takes more time and expense.

In order to maintain a strong and effective recycling program, we need your cooperation. Any items listed as acceptable can go in the 'BLUE' recycle cart and any remaining items go in the garbage or an alternative recycling facility, e.g. light bulbs and metal parts. Contaminated recycle loads may result in additional fees being charged back to the municipalities.

If you have any doubt whether or not an item can be recycled, please contact Loraas or at a minimum, *when in doubt put it in the garbage.*

Attached is a helpful poster which outlines our recycling program. This poster details what can and cannot be put in the blue cart or bin.

Thank You, we appreciate your cooperation as we attempt to keep recycle material clean and costs to the municipalities low.

# Greenall Griffins Update

February in Review | 2020

The French Immersion program at Greenall High School continues to grow! We celebrated French-Second-Language Education Week. This year's theme was 50 years of French immersion, 50 years of the Official Languages Act. Our group of Immersion students, teachers, assistants and supporters created a bulletin board to mark this week. Merci de tous nos supporteurs!

As Entrepreneurship 30 came to a close, the students from semester one donated profits from their companies to Sofia House, Teddy Bears Anonymous, the Regina and Area Food Bank, and Greenall's very own Entrepreneurship program!

Students at Greenall have many options when it comes to taking Practical and Applied Arts Courses. These are just a few of the sewing projects from Semester 1 that were completed. Students sewed their own hoodies, sweats, dresses, stuffed animals, quilts, and much more.

Basketball season continues at Greenall High School! During the first weekend of February the Senior Girls went undefeated in Rocanville to win gold! The Senior teams will have Regionals in early March and the Junior teams head into playoffs the week of February 24-28<sup>th</sup>!

The students at Greenall were appreciative of the parents and School Community Council (SCC) members that provided them with muffins, juice, yogurt and granola bars during final examination week! Griffins know the importance of nutrition while studying and really appreciated this gesture!
